

Metallicized Windshields – Updated January 2011

The vehicles listed below may be equipped with special windshields that contain metal in the glass that prevents the *Good To Go!* Pass from being read properly. If you are unsure about whether your vehicle has one of these windshields, consult your Owner's Manual or contact the dealer where you purchased your car.

If you have one of these vehicles, the License Plate Pass may be the best option for you.
